ADAMS COUNTY BOY DIED AT CAMP TAYLOR

Frank Little died at Camp Taylor Sunday, with heart trouble. He was the son of Dallas Little, of Ginger Ridge, and left Sunday morning, May 26, with 65 other young men to go into training at Camp Taylor. Mr. Little was notified Saturday morning of his son's illness and left that afternoon for his bedside and after arriving at the camp found the boy much improved and was returning home Monday when he received a message of the boy's death. Besides the father, five brothers and one sister are left to mourn. One brother, Kirk Little, is now in France while another brother, Harvey Little, is at Camp Sherman, Chillicothe. Frank was 22 years old and is the first Adams county boy to die while in the service.

WILL ADDRESS BIBLE CLASS

Mr. Swink, Superintendent of the Coit-Alber Chautauqua, will address the Bible Class of the Third Street M. E. Church Sunday School tomorrow morning. A cordial invitation is extended for every man in the city to be present. Be sure to hear this gentleman, it will do you good.

OH YOU CHICKENS!

They Are Assessed at 50 Cents and Turkeys at \$1 Each By State Tax Commissioners.

Every chicken in Kentucky, from frying size up, must be assessed July 1 at 50c, every turkey at \$1 and every duck and guinea at 25c. This uniform value for assessing fowls was agreed on at the County Tax Commissioners' conference at Frankfort Thursday.

The County Tax Commissioner who best assesses his county will get \$100 in gold. This prize was offered by W. O. Davis, of Versailles, and M. M. Logan, Chairman of the Tax Commission.

Advice from the same sources assert that Grand Duke Nicholas has been proclaimed Emperor. Nikolai Lenin, the Premier and Leon Trotsky, the Minister of War, are said to have fled to the Murman coast.

Gen. Kaledines is said to have cooperated with Gen. Korniloff in the Capture of Moscow.

The Copenhagen newspapers, the agency dispatch adds, gives prominence to a Berlin dispatch quoting the Tages Zeitung of that place as saying it had received a message from its Petrograd correspondent reading as follows:

"It is believed here (Petrograd) that Bolshevik Government will soon be overthrown and that Kerensky is the man of the future in Russia."

The advises declare that the supporters of Grand Duke Nicholas have overthrown the Soviets throughout the Siberian provinces of Irkutsk, Blagoveshchensk and Khabarovsk.

The defeat of the Bolsheviks is said to have been made possible by the victories of the Czech-Slovak forces and the treachery of the Red Guard. Several detachments of the Red Guard are declared to have murdered their officers and then surrendered.

The Exchange Telegraph Company publishes its message containing reports of the Bolshevik overthrow and the accompanying details, "with reserve," and points out that the information emanates mainly from German sources and therefore should be received with caution.

Bishop Lewis W. Burton will be the guest of Mrs. E. C. Phister and daughter, Miss Amy Phister, of West Third street, during his stay in this city.

Thomas Randall Wood, infant son of Mr. and Mrs. Gordon Wood, of East Second street, died this morning at 1:30 o'clock.

BOLSHEVIK REGIME OVERTHROWN AT MOSCOW

City Taken By Gen. Korniloff, Aided By Huns—Government Has Fallen, Says Unconfirmed Copenhagen Dispatch and Grand Duke Nicholas Proclaimed Emperor.

London, June 28—According to unconfirmed reports today the Bolshevik Government in Moscow has been overthrown, says a dispatch to the Exchange Telegraph Company from Copenhagen. Moscow, the reports add, has been captured by Gen. Korniloff, supported by German troops.

Advice from the same sources assert that Grand Duke Nicholas has been proclaimed Emperor. Nikolai Lenin, the Premier and Leon Trotsky, the Minister of War, are said to have fled to the Murman coast.

ROASTING EARS HAVE "CAME"

Maysville's War Gardeners are not so far behind those at the national capital who give the advice as to how it should be done and when results should be expected. Mrs. Jane Moses, who has a garden that is way above the average, at her place of residence on Commerce street, is the first to report to Mrs. E. P. Lee ripe corn ready for the table; and this before July 1st. Her garden has already had worthy mention by the war garden expert.

WORTHY CANDIDATES

Chairman Hays of the Republican national committee said in his speech at Philadelphia Friday afternoon:

The duty of the party's membership, this year above all other times, is to look to the quality of our candidates. They must be worthy.

They must be worthy—that's our politics. We naturally think they are likely to be found in the Republican party. If not, what then? Vote for candidate on the opposing ticket? Right there is where the crisis comes in, and especially is it so if the candidate is a Democratic organization man. That makes a serious alternative, for no man is really worthy who is an organization man; that is, a man on a slate, put there by professional politicians. The candidates must be worthy, says the chairman. See to that first and last. And to determine that, find out who are behind a candidacy, and why are they there.

Fuel Administrator Garfield has stated emphatically that a stop must be put to reported waste of fuel-generated electricity. Reports from various sources have reached the Fuel Administration that theaters and other establishments operating display signs and outdoor lights are permitting them to run during daylight hours, and that both municipalities and individuals have returned to the habit of excessive illumination.

Unless official reports show that display illuminations are kept within reasonable bounds, and are limited to hours of darkness, stringent regulations will be ordered against all forms of outdoor lighting and display illumination.

Committee Plan Will End Whiskey and Wine Sale After June 30, 1919, and Beer Will Go Sooner.

Washington, June 27—The Senate Agriculture Committee today agreed upon an amendment to the \$11,000,000 Emergency Agricultural Appropriation bill providing for national prohibition.

Under the amendment the manufacture and sale of whiskey and wine would be prohibited after June 30, 1919, and the manufacture and sale of beer three months after the final approval of the bill by the President.

The amendment was framed by Senator Norris, of Nebraska, as a substitute for the pending one by Senator Jones, of Washington. The Jones amendment would have brought about absolute prohibition immediately upon enactment of the legislation. The Norris compromise was adopted by the committee by a vote of 8 to 3. Those opposed to the Norris amendment attempted to have it changed so as to permit the sale of beer six months after its passage and later proposed four months. Both efforts, however, resulted in defeat.

Chairman Gore said the bill with the new amendment would be reported to the Senate tomorrow, and that an effort would be made to bring it up for consideration at once.

HOW THE SOUTH IS BEGINNING TO FEED ITSELF

Washington—There used to be a story about a southern farmer who bought his beans in Boston, his furniture in Grand Rapids, his food in Cincinnati, and his feed in St. Louis, and all he raised on his farm was a pack of dogs, but that story, according to reports coming in every day to the United States Department of Agriculture, is getting so far from the truth that it hardly deserves a place in the wildest fiction.

For the South is beginning to feed itself. More than that, it is beginning to help feed other sections of the country. The South is divorcing itself from its dependence on the one-crop system, and is raising food and feed as well as cotton in large quantities.

Furthermore—and what is of immediate 1918 importance—the South by feeding itself is decreasing the drain on the North and West and is releasing products of those sections to be shipped across the ocean as liberty food.

Hogs Where Hogs Never Grew Before

Here are some items that prove the evolution—almost the revolution—in southern agriculture:

Until four years ago not a single carload of hogs was shipped from 17 counties in southern Alabama. In the year that ended April 1, 1918, the carloads of hogs shipped from the same 17 counties numbered 2,352. The to-

SCHOOLS TO ORGANIZE

Superintendent Gilbert Urges the Officers and Teachers to Get Busy For War and Thrift Stamps.

The following calls have been issued to the Superintendents, Trustees and Teachers of this state by State Superintendent of Public Instruction V. O. Gilbert.

Frankfort, June 14, 1918.

My dear Trustee:

I am calling for volunteers, and I am sure that you are ready and willing to volunteer at once to do anything that is within your power to make sure that our boys in France are properly cared for.

In order that you and I, and our children who are to come after us, may enjoy the freedom bought with the blood of our forefathers, many of our best young men are baring their breasts to the shot and shell of the enemy on the Western Battle Front.

If these boys of ours place their bodies between us and danger and suffer the shock of battle, torn and shattered bodies—even death, it would be the height of ingratitude, even treason, if we should fail to do everything that is possible to equip and properly care them up.

The United States Government has offered each of us a splendid opportunity to render a real service. Whether we have much or little money, we can buy Thrift Savings Stamps. This is a good investment, and especially valuable as an educational measure to teach the children of the State the lesson of Thrift. I expect every child of school age to become the owner of one or more War Savings Certificates by December 25, 1918. The special Drive is on for June 28. I am enclosing a list of the War Savings Chairmen and the quota apportioned to each county. I want you, immediately upon receipt of this, to go to your County Chairman or send him a card, volunteering your services to help organize your school district thoroughly, to the end that every citizen in the district may take part in this service.

Do this at once, remembering that your home, your children and all that you hold dear would be Prussianized if the Germans win.

Very truly yours,

V. O. GILBERT,
State Superintendent.

Frankfort, June 20, 1918.

If one citizen of Kentucky is under more obligations than another to lead in every movement looking toward the teaching of love of country and reverence for our Institutions, it is the teacher.

We are facing the most radical and dangerous period, not only of our national history but of the world's history. This world conflict must not only be won for freedom and Democracy, but the generations coming on must be taught and trained to preserve and use this greater and more far-reaching liberty that is to come to the earth after Autocracy is eternally crushed.

I purpose that the whole system of public education of the State of Kentucky shall be directed along the lines of a systematic and voluntary teaching of Democracy, and I am asking that every teacher in the State, from the President of the University to the teacher of the subdistrict school, volunteer that every effort be put forth during the school year 1918-19 to lay broad and deep and thoroughly the foundation for the training of our young people in true, righteous citizenship.

The Government is offering us splendid opportunities to teach patriotism by doing, but the most appealing of these opportunities, from an educational standpoint, is the opportunity to invest in War Savings Certificates. This not only enables us to perform a patriotic service for our boys at the Front who are pouring out their blood on the fields of France, but enables us to teach Thrift to the rising generation. Our children must learn thoroughly the lessons of Industry and Thrift if they would maintain the freedom won to the world after such a tremendous cost and sacrifice as is now being made on the Western Front. I know that every teacher will gladly volunteer to carry out this purpose; that

Benefits to South

The significance of the change that southern agriculture is undergoing through the enormous expansion of the acreage of these four legumes can be expressed in important results.

One is the improvement of a soil much in need of humus and nitrogen, both of which these crops supply.

Animal feeds and forage are produced in great quantities in a region that hitherto has brought them in from the North Central States. These crops are meat and milk producers on farms that were consumers of surplus meat and dairy products shipped from northern States. A notable increase of live stock on southern farms diminishes the economic weakness of one-crop farming and means a more self-sustaining and independent agriculture.

Work of County Agents

The county agents of the Department of Agriculture and the State agricultural colleges have been instrumental not only in introducing the growing of these crops and the raising of live stock, but in teaching farmers how to do it and often how to ship live stock cooperatively.

every child of school age shall before December 25, 1918, own one or more War Savings Certificates.

Yours very truly,
V. O. GILBERT,
State Superintendent.

Frankfort, June 20, 1918.
To the County Superintendent.

Dear Sir:

This is the day of volunteers and we are called upon to make many sacrifices upon the altar of freedom, and yet there is so much of glory in doing our duty that the sacrifice becomes a genuine pleasure.

I am asking that you volunteer with your whole might and main in this Thrift Savings Campaign. The Drive will begin June 28, and I am hoping that every child within the school age will become the proud owner of at least one War Savings Certificate. I have written to the trustees about this matter and an enclosing copy of my letter to them. I am also enclosing a letter addressed to the teachers. Will you kindly read or have this read to them at the Institute. Our teacher mailing list is an old one and we believe more good will be done by having the letter read at the Institute, as well as its considerable expense saved.

There has been no Government War Campaign that has in it so much helpfulness as the coming drive to sell Thrift Stamps. If it were not the best possible investment, it would be worth while as an educational movement to teach our children the lesson of Thrift.

I am enclosing list of all County Chairmen in this Campaign, showing also the amount of each county's quota. I hope you will see to it, as the educational leader in your county, that every school district is organized thoroughly for this drive. If you have not already done so, confer with your County Chairman and volunteer your services. Put the schools and the school people body and soul into the Drive. I know that I shall not be disappointed in your efforts.

Yours very truly,
V. O. GILBERT,
State Superintendent.

GRANDSTAND AT MOLINE TO SEAT 25000 PEOPLE

Moline, Ill., June 28—Announcement was made here today that a special grandstand capable of seating 2,500 people will be constructed in front of the race course on Campbells Island for the big annual regatta of the Mississippi Valley Power Boat Association, to be held here July 4th, 5th and 6th. In view of the fact that frequent boat races are held over this same course each season by the Moline Launch Club, under whose auspices the big race meet is being held this year, the grand stand is to be a permanent affair.

The city of Moline expects several hundred visiting boats for the meet and arrangements are being made for camping facilities on Campbell's Island. This is one of the most beautiful spots the length of the Mississippi river and there are scores of cottages of summer residents and many acres of tent room for campers. Supplies of all kinds are obtainable on the island, which also maintains a large summer resort hotel. A special dancing floor is being provided at Campbell's Island Inn and there will be a dancing party for visiting boatmen every evening during the three days of the regatta. There will be band hand concerts during periods when the race boats are not in action.

Moline is preparing to entertain between 50,000 and 75,000 visitors and a large number of race boats representing many of the important cities of the Mississippi and Illinois river valleys have been entered in the event. The principal feature will be a championship contest for the national speed title between "Miss Detroit 11," present world champion and "Miss Minneapolis," world champion in 1917. Both boats are capable of running at better than 60 miles an hour.

Paul Sparks is on the sick list. Mrs. Tully Applegate was in Moline last Saturday.

Master Harry Jolly of Moline, spent Saturday and Sunday with relatives at this place.

Mr. Reed Downing, one of our prominent young farmers, received his call to the colors Wednesday. Reed will be one of the forty-three to leave June 20th for Camp Taylor.

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Thedford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Thedford's Black-Draught."

Thedford's Black-Draught will help you to keep fit, ready for the day's work. Try it!

"SOME FIDDLER."

Crawford Adams Says Hard Work and Not Historic Ancestry, Has Brought Him Success.

"Adams is a plain, old-fashioned, American name, and my ancestors run back into American history quite a ways. I don't know exactly how I am hooked up in relationship with some of the early Adams', who wrote their name large in American annals, but I do know that when I first started on my violin career there were a lot of folks who thought that a fellow with a name like 'Adams' never could succeed as an artist. They had a suspicion that to be a first-class violinist a fellow ought to have a name which ends with a few 'skys,' and that sound more like a sneeze than an attempt to pronounce an individual's name. I didn't think so, and so I plucked ahead, and folks nowadays are kind enough to say that I am 'some fiddler'."

So says Crawford Adams, the wonder violinist who heads the Crawford Adams Company, appearing on the Chautauqua. And Adams is "some fiddler." He literally makes the violin talk. He was on the Chautauqua circuit last summer, and was a sensation, and has been repeated this year by reason of an almost universal demand.

COMEDY IS NEEDED

Has a Place in Building National Morale, Says Percival Vivian.

That good drama will never lose its hold upon the affections of the people, and that comedy is all essential in time of war, is the belief of Percival Vivian, who is directing the destinies of the Ben Green Players, to be seen at the Chautauqua in the presentation of Shakespeare's immortal "Comedy of Errors." Several members of Mr. Vivian's family will be seen in the cast to appear here, his sister, Miss Ruth Vivian, taking a prominent part.

"The Ben Green Players," says Mr. Vivian, "have earned their right to be spoken of as the most popular theatrical company in America. They have appeared in practically every city in this country, in addition to many Chautauqua tours in which they have invaded smaller communities, and their record of success has been surpassed by no organization doing platform work. This is due as much to the elemental appeal of the productions which they have given as it is to the thorough craftsmanship with which these productions are staged and acted. To be recalled over and over again to the same Chautauqua for several seasons is a rather usual thing with the Ben Greens."

WORLD'S GREATEST REPORTER.

Irvin S. Cobb, Holder of That Title, Coming to Speak at Chautauqua.

The Chautauqua is rendering a distinct service when it is making it possible for the people of this community to hear such speakers as Irvin S. Cobb, who will speak up on the closing day of the Chautauqua, down in New York, and in the eastern cities. Irvin S. Cobb is the most sought-after after-dinner speaker available. He never joins a dinner or a luncheon group without adding to the hilarity of the occasion.

He treats even the most serious subjects humorously, and so we may expect, when he comes to the Chautauqua, to speak on his most recent experiences on the fighting fronts in France and Flanders, a verbal picture of the war which will soften its grim tragedy with touches of humanity.

Mr. Cobb is unquestionably the greatest war reporter in the world today, and he is coming to the Chautauqua fresh from a rich experience on the Western Front, where he has been reporting the war for the Saturday Evening Post. His appearance here will be the biggest event of the season.

The one thing no woman is stingy about is a secret.

FIELDS FIRES HOT SHOT

At Former Rival in Letter—Residents
Attack on Loyalty.

Washington, June 27—Representative William J. Fields today wrote a tabasco-like missive to Edgar B. Hagar, of Ashland, Ky., who recently, in a letter to A. Gordon Sulser, of Maysville, announced his determination not to contest for the Democratic congressional nomination with Fields for patriotic reasons, at the same time firing a verbal broadside at the latter. Following is the one paragraph of Field's letter to Hagar.

"In reply to that part of your unwarranted and ungentlemanly remarks which reflects upon my integrity and patriotism, I will say that your attack is only an exertion from a sore on your political skin that you have carried since the day that I defeated you for the nomination to Congress in 1910, but I defeated you fairly without indulging in mud-slinging of any character; therefore, my victory over you does not warrant your continued attacks upon my integrity and patriotism, and I respectfully request you to discontinue your attacks of that character."

Catarrh being greatly increased in consequence of the war requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the fountain of the disease. It gives great strength, building up the constitution and assisting nature in doing its work.
